### Superior nutrition

Jenco Feeds set the bar high when it comes to the quality of our raw ingredients. We source our birdseed grains – including White French Millet, Japanese Millet, Panicum and Canary Seed – from local growers in the Darling Downs region, which is widely regarded as the best growing region for these grains in Australia.

We then use the latest machinery to clean the grains and removing all impurities. With these stringent standards in place, we can guarantee the quality of our machine dressed grains, time and again.

### All natural

All our products are 100% natural vegetarian feeds that are free, artificial colours and flavourings.

### Quality guarantee

In making this product we source only the very best grains and use strict quality control procedures to remove all impurities to ensure a superior quality nutritious feed every time.

### Feeding guide

Make sure clean water is always available.

### Storage

Store in a cool, dry place, preferably in a sealable vermin proof container.

### Our promise

Within every bag is the same superior quality balanced formulation. We never cut corners and all feeds are covered by our 100% Satisfaction Money Back Guarantee.

### White French Millet

White French Millet is a popular birdseed grain, known for its high carbohydrate content, low fibre content and ease of digestion. Ideal for small birds, this grain is a key ingredient in our Budgie Mix and Finch Mix.

### Nutritional analysis

Protein	min: 13.0%
Fat	min: 2.00%
Fibre	min: 9.00%
Carbohydrate	min: 60.0%

### Japanese Millet A

With a soft shell easily broken by a bird's beak, Japanese Millet is another key ingredient in our birdseed mixes. High in carbohydrates and low in fibre, it is a great addition to any bird's diet.

#### Nutritional analysis

Fibre	min:	10.0%
Carbohydrate	min:	60.0%

### Canary Seed B

Canary Seed is an ideal feed for small birds, and makes up a large proportion of Jenco's birdseed rations. With a lower carbohydrate content and higher fibre content than the millet seeds, Canary Seed is an important part of a nutritionally balanced diet for small birds.

#### Nutritional analysis

Fat	min:	4.00%
Fibre	min:	20.0%
Carbohydrate	min:	27.0%

### Panicum C

Panicum is found in all of Jenco's birdseed rations, due to its high carbohydrate content and low fibre content. It is easily digested and highly nutritious for small birds.
